

Fox Mill Elementary Health Room

**A partnership between Fairfax
County Health Department
and FCPS**

About the School Health Room

School Health Aide - (SHA) is not a nurse but is trained to take care of minor school health issues and is in the health room every day during the school hours.

Public Health Nurse (PHN) is a registered nurse. Each PHN is assigned to multiple schools. The PHN develops health care plans, trains school staff, communicates with parents about health conditions that need attention during the school day. Our PHN can also provide resources as needed.

About the School Health Room

Health Room Services:

Minor first aid
Dispense medication
Emergency response (911)
Vision/hearing screenings

Students are sent home for:

Fever of 100.4 degrees or above
Vomiting/diarrhea
Rashes, eye discharge

Parents will also be contacted for illness or injury not improved by health room interventions

General Information

If your child is sick, please keep your child at home until symptoms have been resolved for 24 hours without medication. Please list specific symptoms when you call the attendance line.

Accidents happen. Please pack a change of clothing. We do not have extra clothes in the Health Room.

The individuals on the emergency contact form should be people who live in this area and can pick up your student if you cannot.
